Advanced File Sync and Share

Datasheet

For OX IT Solutions Cyber Protect Cloud

OX IT Solutions Ltd

OFFER SECURE COLLABORATION SERVICES WITH EMBEDDED DATA AUTHENTICITY

Improve the collaboration and productivity of your clients' teams. The Advanced File Sync and Share pack extends OX IT Cyber Protect Cloud's integrated secure file-sharing capabilities with fully remote notarization, verification, and electronic signing. Ensure data authenticity and reduce fraud by layering advanced features on top of the essential, pay-as-you-go service.

ENSURE THE INTEGRITY OF BUSINESS-CRITICAL DATA

Take full control over data location, management, and privacy with a superior file sync and share service. Includes a transaction ledger to enable notarization and eSigning capabilities, and supports all platforms.

MAXIMIZE PRODUCTIVITY AND COLLABORATION

Support your clients' digital transformation with simple file and link sharing, controlled access with custom permissions, eSigning, and file notarization

MITIGATE SECURITY RISKS

Leverage a HIPAA-compliant file sync and share service with encryption at rest and in transit, full control over data location, and data authenticity powered by the Ethereum blockchain.

BOOST REVENUE GROWTH

Increase client retention and generate new revenue streams by expanding your offering with an advanced file sync and share service that supports all platforms.

PROVIDE CONFIDENCE THAT BUSINESS DATA IS AUTHENTIC	STREAMLINE AND SECURE DOCUMENT WORKFLOWS	ENABLE TRUSTED AND INDEPENDENT FILE VERIFICATION
- Accelerate the pace of your client's business by digitizing their notarization processes - Deter fraud and forgery: falsifying records or destroying entries to conceal malicious activity is not possible - Eliminate the need to rely on a trusted third-party to guarantee the immutability of records - Generate a time-stamped, blockchain-based certificate	- Turn data into decisions by enabling clients to quickly sign off on vital documents with an embedded eSignature - Enable compliance with the relevant regulatory bodies and address privacy concerns with the most stringent global security standards and data encryption - Gain instant status visibility: always know where a file is in the signing process	- Empower your clients with an enterprise-class audit trail, including a history of all transactions - Drastically reduce the cost and time necessary to conduct an audit - Verify that a document is unchanged, or confirm that it's been changed, by leveraging the Ethereum blockchain - Integrate the data verification process within notarization and eSignature

Advanced File Sync and Share

OX IT Solutions Ltd
Powered by Acronis

SECURE FILE SYNC AND SHARE SERVICE WITH CYBER PROTECTION IN ITS DNA

OX IT CYBER PROTECT CLOUD INCLUDES:	ADVANCED FILE SYNC AND SHARE ADDS:
Create and securely share content from anywhere at any time and on any device with OX IT Cyber Protect Cloud, a single solution that integrates best-of-breed backup and recovery, next-generation anti-malware, endpoint protection management, and simple file sharing.	Add the Advanced File Sync and Share pack to the essential pay-as-you-go file sync and share service to enable file notarization, verification, and easy eSigning.

• **Sync and share from any device:**
  ○ Supports iOS and Android smartphones and tablets, Windows PCs, Macs, and all popular web browsers
• **Folder sharing**
• **PDF editing and annotation tools**
• **Unlimited file versioning**
• **Audit trail section:**
  ○ Shows the history of all activities
• **Encryption at rest and in transit**
• **Two-factor authentication**
• **Control over files and folders, and policy controls for users, applications and data**
	• **Remote file notarization:**
	  ○ Elevate the credibility of a document
	• **Embedded eSigning:**
	  ○ Execute every step of clients' document workflow – from creation to distribution to securing signatures from multiple people
	• **Notarization and signature certificates:**
	  ○ Gain irrefutable proof that a file was notarized or signed at a specific time
	• **Trusted, independent verification**

Simplified management

Spend less time managing clients by using a multi-tier, multi-tenant architecture designed for service providers. Leverage the winning approach of one agent, one console, one license.

Quick deployment

Reduce file sync and share deployment time to a few minutes and eliminate the need for additional configurations. Leverage an agent auto-update functionality.

Easy-to-use web interface

By providing end-users with an intuitive interface, OX IT Cyber Protect Cloud with Advanced File Sync and Share ensures a quick start and eliminates the need for client training.

Full data ownership and governance

Help clients meet their compliance, data sovereignty, and performance requirements. Enable them to choose and control which region or data center stores their data.

Adherence to regulatory compliance

Acronis security policies and processes are based on broadly accepted international security standards and regulations such as ISO 27001, NIST, GDPR, HIPAA, etc.

Convenient consumption-based pricing

Start earning immediately with a low barrier to entry for clients and competitive pay-as-you-go (PAYG) pricing. There are no hidden or initial start-up costs.

PART OF OX IT CYBER PROTECT CLOUD

Advanced File Sync and Share is one of several advanced protection packs for OX IT Cyber Protect Cloud, which unifies cybersecurity, data protection, endpoint protection management, and simple file sharing in one integrated solution designed for service providers. Each advance pack enables service providers to extend their services with enhanced capabilities to meet client needs, ensuring the optimum level of cyber protection for every workload.
